Dynamic Real Estate Company

Press Release

Dynamic Represents Shafi Enterprises, LLC

Shafi Enterprises, LLC has engaged Dynamic Real Estate Co. to market it's new development known as Shafi Plaza

Wauwatosa, WI, June 26, 2008: Dynamic Real Estate Company has been chosen to represent Shafi Enterprises, LLC in the leasing and sale of its newly constructed office/retail building known as Shafi Plaza.

Located at 1919 West North Avenue, Milwaukee, (corner of 20th and West North Avenue), this development is a fine example of private/government cooperation. The anchor tenant for this building is Shafi Medical Center, SC. This signals one of the first medical clinics to open in the inter city in many years. In addition to the medical clinic United DynaCare, LLC will open a new medical laboratory in the building.

The listing Broker, Sebastian Riccobono, President of Dynamic Real Estate Company states "This is a welcomed addition to an area that has rediscovered itself and is teeming with new construction and renovation that includes a new residential subdivision, scattered site residential construction, as well as a new home for Columbia Savings Bank. The Milwaukee Department of City Development has done an outstanding job at addressing the needs of this community".

Shafi Medical Center is relocating from its current clinic located in the Aurora Sinai complex to be closer to its patient base. Dr Mohammad Shafi, CEO of Shafi Medical Center, SC, state "The new facilities will enable the clinic to continue to provide the very best in medical care to men, women and children as the Clinic has done the past 37 years".

Mr. Riccobono has indicated that there is still approximately 7,000 sq ft of retail and office space available to close out leasing of the building.
